

Medic4All Announces completion of CE Mark for All It's Wireless Products and Software

Wednesday, November 24, 2004, Zug, Switzerland As of 24 of November Medic4All completed CE Mark for all wireless hardware and software products.ⁱ The CE Mark includes certification to the European Medical Devices Directive, required for medical devices sold in the European Union. "We are proud that Medic4All wireless products and software are now completely meeting the rigorous standards of the CE Mark", said Mr. Doron Korman, Medic4All President & CEO. "By accomplishing this certification, Medic4All can offer the revolutionary range of products as a complete package or as a tailored solution, with it unprecedented user friendliness and cost effectiveness, to customers and partners throughout the European Union".

Medic4All Flagship Product:

***WristClinic™* - wireless remote medical monitoring unit**

WristClinic™ is a revolutionary all-in-one wireless remote medical monitoring device that measures Blood-Pressure, ECG, SpO₂, Body temperature, Heart-Rate, Breathing Rate, and Heart rhythm regularity for telemedicine and homecare applications. It enables timely intervention, disease and chronic care management, improved patient compliance and better patient care.
